

Social Media Guidelines

These guidelines apply to all APSIM related events, including APSIM Conferences and Workshops. We ask that all attendees and participants adhere to these guidelines.

Be Courteous and Respectful

Think before you post to social media. Posts on various platforms are available to the public and may be shared with a global audience. In order to provide a positive experience for all participants, ensure posts are courteous and respectful.

Using #APSIM

Use APSIM's hashtag with the current year (example: #APSIM2024) and speaker's social media handle/affiliation (if provided) when making social media posts so other participants and the public may find your posts. If the speaker does not have a social media handle, clearly indicate their identity. Include links to the speaker's website or publications so readers can obtain further information.

Give Credit

Distinguish your own thoughts and opinions from a speaker's statements by using direct quotes, quotation marks, and ensuring appropriate attribution of remarks.

Be Considerate

Be mindful of speakers' requests for no social media reporting. Although open discussion is encouraged and expected, a speaker may ask attendees to refrain from disseminating presentation content on social media.

Get Consent for Recordings

Please do not photograph, video, or otherwise record a participant, speaker or presentation without permission. Obtain consent from the relevant individual(s) before posting photos or videos to social media.
